

# Formative-B

## OUTCOMES

1. Open and investigate the code
2. Install an external .js file for the formative
3. Write code so that the user inputs are reflected in the card:
  - a. Image
  - b. Background color
  - c. Font
  - d. Border
  - e. Message
4. Inputs will be reflected in the DOM/HTML/Card after the user clicks the 'Update' button
5. You should not have to change the css
